TITLE: Wireless device monitoring systems and monitoring devices, and associated methods

Application Number	200980115611	Application Date	2009.02.26
Publication Number	102016938A	Publication Date	2011.04.13
Priority Information	2008/8/8 US 12/188,284		
International Classification	G08B1/08		
Applicant(s) Name	Battelle Energy Alliance LLC		
Address			
Inventor(s) Name	Mccown Steven H.;Derr Kurt W.;Rohde Kenneth W.		
Patent Agency Code	11006	Patent Agent	xu jinguo zhong qiang

Abstract

Wireless device monitoring systems and monitoring devices include a communications module for receiving wireless communications of a wireless device. Processing circuitry is coupled with the communications module and configured to process the wireless communications to determine whether the wireless device is authorized or unauthorized to be present at the monitored area based on identification information of the wireless device. Methods of monitoring for the presence and identity of wireless devices are also provided.
